📍 Greater Noida

SUMMARY

BTech Computer Science student who enjoys building things and solving problems through code. I have experience with C, Python, and basic web development, and I regularly practice data structures to improve my skills. I've worked on projects like a chatbot that interacts with users about their daily routine, which sparked my interest in AI and user-focused applications. I'm always trying to learn and improve, and I'm looking for an opportunity where I can apply my skills, gain real-world experience, and grow as a developer.

EDUCATION

Bachelor of Technology, Computer Science Accurate Institute of Management and Technology 📅 2022 - Present 📍 Greater Noida	CGPA 6.42 / 10.0
Senior Secondary Sri Viswasanthi School 📅 2021 - 2022 📍 Vijayawada	Percentage 78 / 100
High School Sri Viswasanthi School 📅 2019 - 2020 📍 Vijayawada	Percentage 88 / 100

CERTIFICATIONS

Building Model Context Protocol (MCP) Server (BETA) Create custom tools that allow Claude to read and edit documents using the MCP Python SDK.	Front End Developer Mind Luster Designed and implemented responsive, user-centric web interfaces
Cybersecurity: Mind Luster Utilized industry-standard tools like Burp Suite and Nmap to simulate and defend against common cyber Attacks.	Java Foundations Course Udemy

PROJECTS
